TU/e EINDHOVEN UNIVERSITY OF TECHNOLOGY | ELECTRICAL ENERGY SYSTEMS

EES RESEARCH DAY 2026 · CALL FOR PRESENTERS

Share your research with the group

Wednesday 16 December 2026 · Aristo Meeting Center Eindhoven

What

On Wednesday 16 December we are bringing the EES group together for our second Research Day. The afternoon belongs to our researchers: **five colleagues will take the stage and tell the group what they are working on.** We would love for one of them to be you.

5
talk slots

15+3
minutes talk and Q&A

14:00
afternoon session

Why

Most of us only see a small part of what happens in the group. This session is a chance to change that. We would like the five talks to come from **five different research areas within EES**.

Your work does not need to be finished or polished. A recent paper, early results from a project, a new lab setup or demonstrator, or a question you keep coming back to can all make a great talk.

PhD candidates, postdocs and staff are equally welcome. You will have 15 minutes to present and 3 minutes for questions.

How

Interested? Send an email to **Lingkang Jin** (l.jin@tue.nl) **by Friday 4 December 2026**, with:

- your name, position and research area;
- a short bio of two or three sentences;
- a short description of your presentation with a working title;
- three to five keywords.

If more people volunteer than we have slots, we will choose the talks so that five different research areas are covered. We look forward to hearing about your work!
